

Cost Per Test/Cost Per Reportable - INSTRUMENTS AND LABORATORY EQUIPMENT

DEPARTMENT OF VETERANS AFFAIRS
FEDERAL SUPPLY SCHEDULE SERVICE
AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST (CATALOG)

Federal Supply Schedule FSC Group 66, Part III
Cost-per-Test: Clinical Laboratory Analyzers:
Chemistry, Hematology

FSC class: 6630
Contract number: V797P-4742a
Contract Period: November 01, 2004 through October 31, 2009
Abbott Laboratories, Inc., Diagnostics Division
100 Abbott Park Road
Abbott Park, IL 60064
1-800-533-9111
Business size: Large

INFORMATION FOR ORDERING ACTIVITIES

| | |
|---------------------------------------|---|
| ITEM NUMBER: | 605-1a, 605-2b, 605-6a, 605-6b |
| BUSINESS ADDRESS: | Abbott Laboratories Inc. |
| MAXIMUM ORDER: | N/A |
| MINIMUM ORDER: | 12,500/yr. (AxSYM, AxSYM Plus, IMx, TDx/FLx, i2000, i2000SR, FPC, PPC and DI) 25/day (CD Sapphire) 10/day (CD3700SL, CD3700CS, CD3200SL, Ruby and CD3200CS) 4/day (CD1800 and CDSM) 400,000/yr (c8000, ci8000 and Aeroset) 50 States & D.C. & P.R |
| GEOGRAPHIC COVERAGE: | Santa Clara, CA, Abbott Park, IL, Irving, TX |
| MANUFACTURING/DISTRIBUTION POINTS: | Prices herein are net discount deducted.. |
| BASIC DISCOUNT: | Various -See Price List |
| QUANTITY DISCOUNT: | Net 30 Days |
| PROMPT PAYMENT TERMS: | Yes/ No additional discount |
| CREDIT CARD ACCEPTANCE: | N/A |
| FOREIGN ITEMS: | Within 30 Days After Receipt of Order |
| DELIVERY: | Within 14 Days after Receipt of Order (analyzers). Within 48 hrs. After Receipt of Order (reagents and consumables) - |
| EXPEDITED DELIVERY: | Government customers will pay difference between a standard freight charge and emergency freight charge. |
| F.O.B.: | Destination within Consignee's premises, 50 States, D.C.& P.R. |
| ORDERING ADDRESS: | Abbott Laboratories Dept . 943, Bldg. AP6C 100 Abbott Park Road Abbott Park, IL 60064-3500 |
| PAYMENT ADDRESSES: | See following page |
| WARRANTY/LIABILITY: | Government clauses apply |
| BUSINESS SIZE: | Large |
| Terms and Conditions of Installation: | See Delivery above. |
| POINTS OF PRODUCTION: | Barcelonetta, PR, Abbott Park, IL, Dallas, TX, Santa Clara, CA |
| RETURNS GOODS POLICY: | Commercial Policy |
| HAZARDOUS MATERIAL: | None |
| PARTICIPATING DEALER: | None |
| DUNS Number: | 127208879 |
| CCR Complete: | Cage Code: 33110 |
| Federal Tax ID: | 36-4184946 |

REMITTANCE ADDRESSES

For each order processed, our invoices are computer generated according to your *BILL TO* address. Please find the first three digits of your zip code for your *BILL TO* address on the list below to determine the Abbott remittance address that will appear on the invoice. If your *BILL TO* address changes, our remittance address will automatically change accordingly.

Billing Procedure for CPT and CPR

CPT

Government will purchase kit/cube at the calculated price and be invoiced at time of shipment. Payment expected net 30 days, FOB destination. Efficiency of usage is the government's responsibility. Calibrator/Control material and disposables as outlined in the no charge accessories lists provided will be shipped in on a monthly, bimonthly, quarterly or yearly basis. Quantities exceeding those listed on the attached pages will be the customer's responsibility.

CPR

See attached Abbott CPR pricing.

Open Channel Tests

Open channel tests will be allowed on the Aeroset system. The add on will be determined by the following method:

- Aeroset
Add the Fixed and Variable Add on cost on the sheets attached based on volume.

ABBOTT Automated Immunoassay Systems

**The Cost Per Test (CPT) programs are flexible and can be customized.
The Basic Cost Per Test can have options added-on to make an all inclusive CPR
or these components may be purchased separately.**

- { Basic Cost Per Test includes:
- Reagents for Patient Testing
 - Calibration and control material
 - Disposables / Accessories
 - Training: At installation: Primary operator -
(Architect, AxSYM, IMx, TDxFLx:
Includes airfare, hotel and meals)

- { Basic Cost Per Reportable includes:
- Reagents for Patient Testing, Cals, Controls and Repeat Testing as outlined on pricing page.
 - Calibration and control material
 - Disposables / Accessories
 - Training: At installation: Primary operator -
(Architect, AxSYM, IMx, TDxFLx:
Includes airfare, hotel and meals)

- { Instrument Options:
- Outright Purchase (per GSA Contracts)
 - Add-on to the Basic CPT
 - Waive (for owned systems)

- { Service Options:
- Yearly Payment
 - Add-on to the Basic CPT
 - Waive (for owned systems with service)

- { Annual Re-training Options:
- Yearly Payment
 - Add-on to the Basic CPT
 - Waive

ABBOTT Automated Immunoassay and Chemistry Systems Cost Per Test/Cost Per Reportable Programs

Add on Cost per Test/Cost Per Reportable Options

The Basic CPT/CPR may have any combination of the following CPT/CPR Add-Ons

Instrument Options:

| ABBOTT Instrument | Government* CPT Price | Quarterly Amount | CPT/CPR Add-On |
|-------------------|-----------------------|------------------|--|
| Architect c8000 | \$107,973.03 | \$5,398.65 | Divide Quarterly Amount by the Number of Patient |
| Architect ci8200 | \$167,551.97 | \$8,377.60 | |

Volumes are Basic Cost Per Test

Basic CPT includes Reagents for Patient Testing, Calibrator Material, Control Material, and Disposables

Assumptions:

Customer assumes the responsibility for efficiency.

Quantity of Control and Calibration material based on 3 controls/day/assay and 1 calibration/month/assay.

All disposable and buffer solutions included at no charge as per the quantity listed in catalog.

Customer purchases reagents in 100 test kits and is invoiced at time of shipping net 30 days.

FOB Destination for equipment, reagents and disposables.

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 12 months.

ABBOTT Automated Immunoassay Systems Basic Cost Per Reportable Pricing

CPR Price

Step 1: CPR Tier Price = CPT Base Price * CPR Factor

Step 2:: CPR Price = CPR Tier Price * (1 - (Volume Tier Discount + Term Discount))
+ Instrument Add-on + Service Add-On + Training Add-On

CPR Tier Prices are established for each Assay based on the commitment for that assay only. Based on the commitment and class of the assay a CPR factor is applied, the factor is different depending on the assay commitment. The minimum commitment per assay is 1200 reportable / year.

Term and Volume Tier Discount are applied later once the CPR Tier Price has been established. As in the CPT program the volume tier discount is based on the total commitment.

Adjustment may be made on a semi-annual basis if volume differs from original commitment

| | Min assay reportable | Max assay reportable | CPR Factor (Class 1*) | CPR Factor (Class 2**) | |
|----------------|-------------------------|-------------------------|--------------------------|---------------------------------|--|
| <i>Tier 01</i> | 1,200 | 2,400 | 2.83 | 2.20 | *Class 1 assays are AxSYM, IMx and TDx/FLx |

Volumes are Basic Cost Per Reportable

Basic CPR includes Reagents for Patient Testing, Calibrator Material, Control Material, Disposables and Reagents to perform Calibration and Control runs as outlined below. Assumptions:

This is a Cost per Reportable. The Cost per Patient Result is based on allowing a maximum of 3controls/day/assay, 1 calibration/month/assay and 5% maximum repeats.

All disposable and buffer solutions included at no charge as per the quantity listed in catalog.

Reagents are shipped out at no charge and the customer is billed monthly based on the number of patients reported.

FOB Destination for equipment, reagents and disposables. Additional charges will occur if the customer exceeds the maximum allowed controls, calibrations and repeats.

Customer must provide a computer generated report listing the following:

Patients by assay Controls by assay Calibrations by assay Repeats by assay

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 6 months

ABBOTT Automated Clinical Chemistry System

Cost Per Test Programs

Aeroset/c8000/ci8200 Basic Cost Per Test (CPT) Pricing

Automated Clinical Chemistry Routine Assays Matrix

Volumes for each assay are matrix cumulative

Basic Cost Per Test Pricing

Cost Per Test Program

CPT price is built based on the total volume commitment of the account. Tier Pricing for different groups will vary depending on the group. Add-On Cost for Instrument, Service and Training are established separately. (The below table shows the CPT reagent prices, excluding any Add-On cost.)

| | Min Tests | Max Tests | Group I | Group IA | Group II | Group III | Spec Protiens | TDMs | DAUS |
|---------|------------|-----------|---------|----------|----------|-----------|------------------|---------|---------|
| Tier 01 | 0 | 400,000 | \$0.151 | \$0.151 | \$1.063 | \$2.313 | \$2.008 | \$2.072 | \$2.072 |

Volumes are Basic Cost Per Test

Basic CPT includes Reagents for Patient Testing, Calibrator Material, Control Material, Disposables and Reagents to perform Calibration and Control runs as outlined below. Assumptions:

This is a Cost per Test. The Cost per Test Result is based on allowing a maximum of 5 controls/shift/analyzer, calibration as per manufacturers specifications/analyzer and 10% maximum repeats.

All disposable and buffer solutions included at no charge as per the quantity listed in catalog.

FOB Destination for equipment, reagents and disposables. Additional charges will occur if the customer exceeds the maximum allowed controls, calibrations and repeats.

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 6 months.

Minimum quantities per month apply.

Instrument provided may be new or refurbished.

ABBOTT Automated Clinical Chemistry System

Cost Per Reportable Programs

Aeroset/c8000/ci8200 Basic Cost Per Reportable (CPR) Pricing

Automated Clinical Chemistry Routine Assays Matrix

Volumes for each assay are matrix cumulative

Basic Cost Per Reportable Pricing

Cost Per Reportable Program

CPR Tier Prices are established for each Assay based on the commitment for that assay only. Based on the commitment and class of the assay a CPR factor is applied, the factor is different depending on the assay commitment. The minimum commitment per assay is for Group I assays is 4800 reportable / year minimum commitment for all other groups is 2,400 reportable / year. Volume Tier Discounts are applied later once the CPR Tier Price has been established. The volume tier discount is based on the total commitment.

| | Min assay reportable | Max assay reportable | CPR Factor (Class 1*) | CPR Factor (Class 2**) | CPR Factor (Class 3***) | |
|---------|-------------------------|-------------------------|-----------------------------|---------------------------|----------------------------|---|
| Tier 01 | 2,400 | 4,800 | 2.020 | 3.280 | 1.990 | *Class 1 assays are Basic Chems groups I, IA, II, & III |
| Tier 02 | 4,801 | 9,600 | 1.585 | 2.215 | 1.570 | |
| Tier 03 | 9,601 | 19,200 | 1.368 | 1.683 | 1.360 | |
| Tier 04 | 19,201 | 38,400 | 1.259 | 1.416 | 1.255 | **Class 2 assays are basic chems CO2, MG, & Creatinine |
| Tier 05 | 38,401 | 76,800 | 1.204 | 1.283 | 1.203 | |
| Tier 06 | 76,801 | 153,600 | 1.177 | 1.217 | 1.176 | |
| Tier 07 | >153601 | | 1.164 | 1.183 | 1.163 | **Class 3 assays are Specd Proteins, DAUs, & TDMs |

| | Min total reportable | Max total reportable | Group I | Group IA | Group II | Group III | Spec Proteins | TDMs | DAUS |

Reagents are shipped out at no charge and the customer is billed monthly based on the number of patients reported.

FOB Destination for equipment, reagents and disposables. Additional charges will occur if the customer exceeds the maximum allowed controls, calibrations and repeats.

Customer must provide a computer generated report listing the following:

Patients by assay Controls by assay Calibrations by assay Repeats by assay

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 6 months.

Minimum quantities per month apply.

Instrument provided may be new or refurbished.

ABBOTT iSTAT Systems

Cost-Per-Test Programs

{ Models and List Numbers:

| | | |
|------------|------------------|----------|
| SIN 605-6b | i-STAT Model 200 | 06F16-02 |
| | i-STAT 1 | 06F16-10 |

The Cost Per Test (CPT) program is flexible and can be customized.
The Basic Cost per Test can have options added-on to make an all inclusive CPT or these components may be purchased separately.

{ Basic Cost per Test includes:

- Reagents for patient testing
- Calibration and control material
- Disposables / Accessories
- Training: At installation: Primary operator on site

{ Basic Cost per Reportable:

- Not available for these products.

{ Instrument Options :

- Outright Purchase (per FSS Contracts)
- Add-on to the Basic CPT
- Waive (for owned systems)

{ Service Options:

- Yearly Payment
- Add-on to the Basic CPT
- Waive (for owned systems with service)

i-STAT Total Cost Per Test Calculation

Total CPT/ consists of calculating the **Basic Cost per Test/Reportable** and the **Add-On Cost per Test Options** where appropriate.

I. Calculation of Basic Cost per Test.

- (1) Based on the Number of Test Results (Cartridges) per Year per instrument.¹
- (2) Use the Basic CPT Matrix to determine the **Basic CPT**.

II. Calculation of the Add-On CPT Options.

- (1) Select which Add-On Options are desired and note the appropriate Quarterly cost for each. Total all Add-On Charges.
- (2) Calculate the Total Number of Cartridge Results per Quarter.
- (3) Divide the Total of all the Add-On Charges by the Total Number of Cartridges to determine the **Add-On CPT** Charge for all Assays.
- (4) The **Total CPT** is determined by adding the **Basic CPT** for each assay and the **Add-On CPT** Charge.

¹. Basic CPT price includes calibrator and control material. Customer pays same price/cartridge for patient, cal and control runs ¹

| | CD3700CS | 02H30-01 | Ruby | 08H67-01 |

The Cost Per Test (CPT) and Cost Per Reportable (CPR) programs are flexible and can be customized.

The Basic Cost per Test can have options added-on to make an all inclusive CPT or these components may be purchased separately.

{ Basic Cost per Test includes:

- Reagents for patient testing
- Calibration and control material
- Disposables / Accessories
- Training: At installation: Primary operator
(Sapphire, 3700SL-CS, 3200 CS-SL, Ruby)
(airfare, hotel, meals included)
(1800-CS, on-site training)

{ Basic Cost per Reportable includes:

- All items in CPT plus Reagents for Cals, Controls and Repeats as outlined in the Pricing Grid.

{ Instrument Options :

- Outright Purchase (per GSA Contracts)
- Add-on to the Basic CPT
- Waive (for owned systems)

{ Service Options:

- Yearly Payment
- Add-on to the Basic CPT
- Waive (for owned systems with service)

{ Annual Re-training Options:

- Yearly Payment
- Add-on to the Basic CPT
- Waive

Hematology Total Cost Per Test Calculation

Total CPT/CPR consists of calculating the **Basic Cost per Test/Reportable** and the **Add-On Cost per Test /Reportable Options** where appropriate.

I. Calculation of **Basic Cost per Test**.

- (1) Based on the Number of Test Results (Cycles) per Day per instrument.¹
- (2) Use the Basic CPT Matrix to determine the **Basic CPT**.

I. Calculation of **Basic Cost per Reportable**.

- (1) Based on the Number of Patient Result CBCs per Day per instrument.²
- (2) Use the Basic CPT Matrix to determine the **Basic CPR**.

II. Calculation of the **Add-On CPT/CPR Options**.

- (1) Select which Add-On Options are desired and note the appropriate Quarterly cost for each. Total all Add-On Charges.
- (2) Calculate the Total Number of Patient Results per Quarter by multiplying the daily amount by 91.
- (3) Divide the Total of all the Add-On Charges by the Total Number of Patient Results to determine the **Add-On CPT/CPR** Charge for all Assays.
- (4) The **Total CPT/CPR** is determined by adding the **Basic CPT/CPR** for each assay and the **Add-On CPT/CPR** Charge.

¹. Basic CPT price includes calibrator and control material. Customer pays same price/CBC for patient, cal and control runs ¹

². Basic CPR price includes 5 controls per shift, 3 shifts per day with a maximum of 5% repeats. Patient only pays for patient runs. See limits on pricing page.

Volumes are Basic Cost Per Test.

Basic CPT includes Reagents for Patient Testing, Calibrator Material, Control Material, and Disposables

Assumptions:

Customer assumes the responsibility for efficiency and will be charged for patients, cals, control and repeat runs.

Quantity of Control and Calibration material based on 3 controls/shift/analyzer and 1 calibration/6 months/analyzer.

All disposable and buffer solutions included at no charge as per the quantity listed in catalog.

Customer purchases reagents in cubes and is invoiced per cube at the time of shipping net 30 days.

Reagent cube price is determined by calculating the total projected cost per month (including instruments, service, training and Basic CPT) and dividing that cost by the total number of cubes of reagent shipped in to the account per month.

FOB Destination for equipment, reagents and disposables .

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 12 months.

2 kits of control material provided per instrument per month maximum.

25% extended lyse mode runs maximum.

Instrument provided may be new or refurbished.

Volumes are Basic Cost Per Reportable.

Basic CPR includes Reagents for Patient Testing, Calibrator Material, Control Material, Disposables and Reagents to perform Calibration and Control runs as outlined below. Assumptions:

This is a Cost per Reportable.

The Cost per Patient Result is based on allowing a maximum of 5 controls/shift/analyzer, 1 calibration/6 months/analyzer and 10% maximum repeats.

All disposable and buffer solutions included at no charge as per the quantity listed in catalog.

Reagents are shipped out at no charge and the customer is billed monthly based on the number of patients reported.

FOB Destination for equipment, reagents and disposables. Additional charges will occur if the customer exceeds the maximum allowed controls, calibrations and repeats.

Customer must provide a computer generated report listing the following:

Patients by assay Controls by assay Calibrations by assay Repeats by assay

Volume fluctuations will be assessed quarterly with changes in volume tiers occurring every 6 months.

2 kits of control material provided per instrument per month maximum.

25% extended lyse mode runs maximum.

Instrument provided may be new or refurbished.
